

Position Title

Business Solutions Quality Assurance Assistant Mgr

Job Purpose

A Great Opportunity for ...

To lead quality assurance and UAT preparation to ensure flawless pre-launch testing, operational readiness, and post-launch validation of Mobile Financial Services and VAS products.

Key Responsibilities

QA & Testing Strategy

- Develop and implement QA and UAT strategies for MFS existing products and VAS products.
- Define testing scope, objectives, and success criteria in collaboration with product and tech teams.

UAT Preparation & Execution

- Prepare UAT plans, scripts, and datasets for pre-launch testing.
- Coordinate with internal stakeholders, agents, and partners for smooth UAT execution.

Issue Management & Resolution

- Identify, track, and prioritize defects or gaps during QA/UAT.
- Collaborate with product and engineering teams to ensure timely resolution.

Data Validation & Performance Monitoring

- Validate transaction flows, system integrations, and reporting accuracy.
- Track and analyze test results to ensure system readiness and reliability.

Post-Launch Review & Continuous Improvement

- Conduct post-launch QA reviews to identify lessons learned and process improvements.
- Document QA/UAT outcomes and refine SOPs for future releases.

Job Requirements

- Bachelor's or Master's degree in Computer Science, Information Systems, Business Administration, or related field.
- 5+ years of experience in QA, UAT, software testing, or product validation, ideally in FinTech, MFS, or digital payments.
- Certifications in QA, Software Testing, ISTQB, Agile/Scrum, or Digital Product Testing are advantageous.
- Strong experience in test planning, execution, defect tracking, and cross-functional coordination.
